

# Year 1 e-safety & Digital Literacy

## Key Facts

**Key Vocabulary:**  
*internet* a network of computers around the world.  
*online* connected to the internet.  
*minimise* to make the screen disappear but not close.  
*personal information* our name, school, address, phone number, where we play (park).

**Links to prior learning:**  
 Pause for people.

**Learning how to stay safe online**  
 We can use the internet for playing games, listening to music, sending messages, watching movies and finding information  
 When we are online we should tell an adult if:

- a webpage opens and we are not sure what to do
- a game is open that we know is for older children
- a message pops up from someone we don't know.

**Keeping our personal information safe**  
 We must keep our personal information safe by not sharing it with people we don't know. Personal information can include our full name, address, name of our school and phone number.  
 Personal information is **not** our favourite colour, a song we like or what we had for lunch.

**Staying safe online**  
 Not everyone is who they say they are online.  
 We should not chat with people we don't know online.  
 If we are concerned about anything we should tell an adult we trust.
