Homes

Geography Y1: Homes around the world

Key knowledge

The continents of the world and its oceans.

Countries of the United Kingdom and the capital cities.

The different types of homes within the UK (detached house, semi-detached house, flat, bungalow and terraced house). These can be different all over the world.

Key line of enquiry:

What is a home?

Where in the world do you think this home may be?

Are these homes different from where you live?

Links to prior learning:

Children know about the local environment and beyond eg. Comparing different continents around the world (YR)

Links to other subjects:

Science – Materials; habitats; endangered species

Art – Observational drawings of homes

History – Homes from the past
DT – Making an ideal bedroom
