

PE

Your aim is to be physically active for 60 minutes in a day. This does not have to be done in one go and can be broken down, for example four 15 minute blocks. Physical activity is defined as any bodily movement produced by skeletal muscles that requires energy expenditure. You're looking to increase your resting heart rate.

Staying at home will mean you will miss opportunities to be active for example:

- Walking to and from school
- Break time
- Lunchtime
- Movement breaks
- PE lessons
- Clubs

Therefore, it is down to you to make sure that you are physically active for 60 minutes of the day. Physical activity could also involve walking, gardening and cleaning.

On this document is a number of physical activities that you can pick from to make up your 60 minutes a day.

Physical activity for children and young people (5-18 Years)

Builds confidence & social skills
Develops co-ordination
Improves concentration & learning
Strengthens muscles & bones

1. Sit ups

2. Burpees

3. Wall sit

4. Shoulder taps

5. Squats

6. Plank

7. Jogging on the spot

8. Press ups

Two options

9. Lunges

10. Mountain climbers

Repeat- Can you try 40 seconds work and 20 seconds rest?

Option 4

The staircase killer

Warm up

Walk up the stairs and back down 3 times

1. Run up walk down x 5
2. Two footed jump on each step walk down x 5
3. Two footed jump on every other step x 5
4. Hop left leg on every step x 5
5. Hop right leg on every step x 5
6. Run up walk down x 5

Want a challenge?

On step 3 see if you can jump more than two!

Time yourself on how quickly you can complete it and try and beat your score the following day!
