

## Staying at home ideas

If your child is at home because they are unwell, then please do concentrate on resting and getting better!

If however, your child is at home and is well, and you would like some ideas of what you can do, please see the following.

Please remember, that our approach is very play based. It may be tempting to try and do lots of adult led activities, but please do not feel pressured to provide an impressive activity every day! There are lots of lovely ideas on Pinterest, although giving your child open ended resources, such as sellotape, recycling, glue, scissors, hole punches and crayons, will result in many hours of fun. If you are able to go outside then please do so. It is great for their overall health and well being.

We advise very simply, Chat, Play, Read and movement.
