Key Facts and Knowledge

Music, like poems, can describe images and mood.

Composers try to capture this in music.

Different moods in music can be achieved by changes in:
tempo, dynamics, pitch, rhythm, instruments, the number of instruments playing.

Can you name some instrument sounds to represent the start of the poem?

Pretty shells washed onto the sand,
Sand a golden yellow colour,
Colour in the blue of the sea,
Sea with gentle lapping waves,
Waves clouded with green seaweed,
Seaweed clinging to the breakwaters.
