Run for Rusuzumiro

Last year you raised just over...
£4178

The money was spent on installing
two lightning rods.

What are lightning rods?

A typical lightning rod on a rooftop

A lightning rod is a device for attracting lightning strikes. It is usually made out of a rod of metal with a pointed end and is mounted at a high spot such as the roof of a building. The rod is connected to ground through a cable that is attached to a stake that is driven into the earth.

The washroom

Purpose this year:

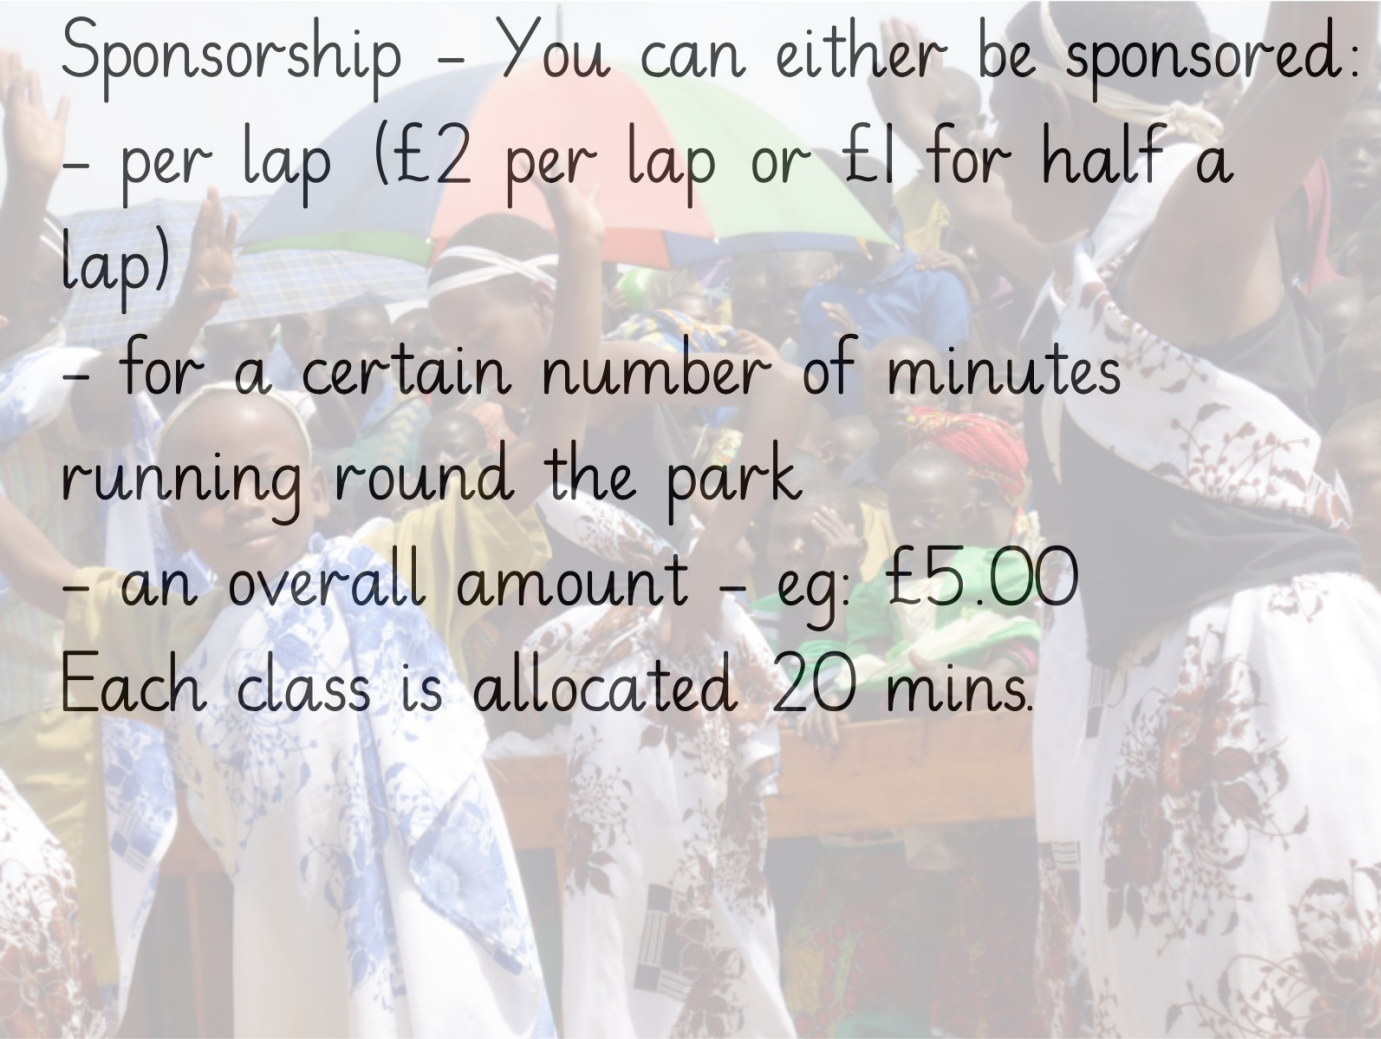

It's our 10 Year anniversary with Rusuzumiro so all money raised will contribute towards the following projects:

To build two classrooms (computer labs) and in return the government will provide the school with 100 computers. The cost of one classroom will be £8000.

To build a simple fence and gate at the entrance of the school. The cost is £1500.

To build a perimeter fence around the school. The cost is £10,000

360 health insurance cards to fund 60 families. The cost is approx. £1000

Sponsorship - You can either be sponsored:

- per lap (£2 per lap or £1 for half a lap)

- for a certain number of minutes running round the park

- an overall amount - eg: £5.00

Each class is allocated 20 mins.

Run for Rusuzumiro Sponsor Form, 2019

This year, the money we raise will contribute towards installing two lightning rods. Every penny is appreciated and will make a difference.

Sponsorship - You can either be sponsored:

- per lap (£2 per lap or £1 for half a lap)
- for a certain number of minutes running round the park
- an overall amount - eg: £5.00

Each class is allocated 20 mins.
