

Mnemonic system

A mnemonic system is a way of helping children to remember letter-sound correspondences. Some children can become over reliant on a mnemonic system. For example, they may say, 'cat' instead of the sound /k/ when looking at the letter c on a flashcard. To avoid this, Set 2 flashcards do not use key pictures. Instead, key pictures can be found on the Frieze and Sounds Mats, and in the Pupil Practice Booklets.
